

Website files reside on special computers (known as "servers") that are hooked into the internet 24 hours a day. These servers are maintained by hosting companies. We offer a reliable website hosting services that will keep your site online and accessible at all times.

When choosing **Directions for Business Solutions** as your web hosting service provider you acquire a competent and reliable infrastructure in UNIX server environment.

Directions for Business Solutions hosting service providers must pass our stringent requirement for reliability.

All hosting accounts are:

- Monitored 24 hours per day, 7 days per week, 365 days per year
- Backed up daily
- Have redundant power sources and access sources
- Optimized by certified systems administrators and engineers
